

Data Wireless Connect

Our wireless broadband plans give you freedom and value. Choose from a range of included data options and select between contracted and non contracted plans.

With wireless broadband capability you're no longer chained to an office or a network cable. With the use of a wireless modem you can access your emails and the internet without external cables. With the correct setup, you can even tap into resources on your office computer or server when you're out on the road. We've developed product solutions that deliver flexibility in the way you can access services, as well as a range of included data options to suit your needs. Our wireless broadband plans give you new levels of freedom and choice.

Need a wireless modem?

The smooth, compact and high speed capability of our wireless modem makes it simple to access the internet while you're on the move. The standard USB interface enables the modem to be used on your laptop or desk computer.

Prefer the freedom of no contracts?

Purchase your wireless modem separately, or bring your own compatible one, and you can take advantage of our month-to-month wireless broadband plans.

What you'll need to connect

- Laptop (or computer) with spare USB port
- Standard USB interface
- Wireless modem
- Appropriately configured SIM
- Proximity to a wireless base station

Select your plan based on your needs	Light use	Regular use	Heavy use
Plan name* (24 month contract)	WB1GC	WB3GC	WB6GC
Plan name (month-to-month)	WB1G	WB3G	WB6G
Monthly access fee	\$26.95	\$39.95	\$59.95
Included data#	1GB	3GB	6GB
Excess data (per MB)	\$0.15	\$0.15	\$0.15

* Customers connecting to a 24 month contract will receive a \$0 upfront modem. See terms and conditions overleaf for further information.

The 6GB plans, both contracted and non contracted, have a maximum data limit of 7GB. All other plans have a maximum data limit of 6GB. If you reach the maximum data limit in any calendar month your service will be suspended until the end of that calendar month.

Data Wireless Connect

Terms and conditions

1. Plans are available month-to-month or on a 24 month contract.
2. Customers signing onto a contract service will receive a wireless modem. The wireless modem included within your plan is as specified on your application form and must be obtained from South East Qld Community Telco at the time of sign-up or it is forfeited.
3. The minimum cost of WB1GC over 24 months is \$646.80, the minimum cost of WB3GC over 24 months is \$958.80, and the minimum cost of WB6GC over 24 months is \$1438.80. Fees apply for early termination of fixed term contracts.
4. Your pricing plan sets out the amount of included data that you can download and upload in a billing month. Data usage will be counted in kilobytes, where 1000KB = 1MB and includes both uploads and downloads.
5. If you exceed your plan's included monthly data allowance, excess usage will be charged at \$0.15 per MB. At the end of each billing month any unused included data will be forfeited.
6. You are able to obtain an indication of your megabyte usage via the software included with your modem.
7. The 6GB plans, both contracted and non contracted, have a maximum data limit of 7GB. All other plans featured have a maximum data limit of 6GB. If you reach the maximum data limit in any calendar month your service will be suspended until the end of that calendar month.
8. Maximum download speed on 3G/HSDPA is 3MB/sec. This represents maximum possible connection speed. Actual speed achieved will vary depending on how far you are from the mobile tower, configuration and quality of your connection, the number and type of services being used in the connection area, your computer's hardware and software setup, and the configuration of any computer you are trying to access remotely.
9. The service as described is only available within our selected GSM or 3G/HSDPA coverage area and is subject to network availability. Please refer to www.optus.com.au/coverage for full coverage details.
10. You can also use the service to connect to the internet outside the 3G/HSDPA areas, within our selected GSM network areas. Where only GSM coverage is available you will not experience broadband speeds.
11. The service is only available for use with a South East Qld Community Telco supplied SIM card and approved wireless data modem.
12. The South East Qld Community Telco supplied wireless modem is available at \$0 upfront on the 24 month contracted plans. You may purchase a modem outright on the month-to-month plans from South East Qld Community Telco or bring your own wireless data modem if it is approved for use on the Optus 3G/HSDPA or GSM network. Colour and style of wireless modem may vary from images used in this brochure.
13. These wireless broadband plans may only be used to access data services. You cannot use the supplied SIM card to access other services such as voice calls, international voice calls, voicemail and calls to 1300 and 1900 numbers, or send and receive SMS.
14. If the supplied SIM card is used in an alternate modem it will count towards your plan's data allowance.
15. The equipment you use to access your wireless data service (e.g. your laptop) must meet the system requirements advised by us. Full details of applicable system requirements are available on request.
16. The service is available to customers who connect to a new wireless broadband service. All applications for the service are subject to credit assessment and acceptance.

This price list is effective 10 March 2009. All prices include GST.

For full terms and conditions please refer to our Standard Form of Agreement and Acceptable Use Policy, copies of which are available at our website: seq.communitytelco.com.au. You must adhere to these terms when using this service.
